ONE STOP SERVICE

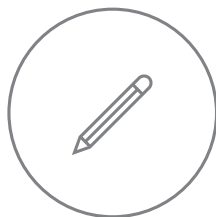

01

BESPOKE GIFTS

From conceptualisation and design to production and delivery. We are able to create products to uniquely distinguish your brand.

IDEATION

We propose creative ideas for gifts/ premium to enhance your brand.

02

DESIGN

Creative in-house designers are our ideation factory that keeps innovative designs applied to the products that enhance your brand.

SOURCING

We source globally with in-house sourcing teams, in several offices within low cost manufacturing countries to look for suppliers whom we can partner with strategically.

03

BRAND-ON PRODUCTS 04

We keep stock of an extensive range of generic products, coupled with our in-house printing services, to meet customers urgent promotional product requirements.

SOURCING/ PRODUCTION

From sample proofing to mass printing and production, we consciously source for quality and cost efficient supplies.

BRANDED PRODUCTS 05

We have established partnerships with global brands, some exclusively, that offer our customers premium options.

INVENTORY MANAGEMENT 07

As a value added service, we can offer inventory management services through barcoding of products and warehousing systems, to alert customers of the need to replenish products. This is in addition to offering temporary or long term storage of customers' consigned inventory.

ORDER MANAGEMENT

Our experienced cross functional teams will track each order with milestone activities and dates to ensure order fulfillment.

QUALITY CONTROL 08

Professional in-house QC teams apply international AQL quality standards when inspecting our products at supplier factories.

FULFILMENT

We aim to deliver every order on time with the right quantity and quality.

06

LICENSED PRODUCTS

We have experience in applying licensed brands to products that would complement and serve our customers' marketing requirements. This involves integrating licensor royalty agreements, product designs that meet licensors' guidelines and sourcing for licensor approved suppliers to manufacture these licensed products.

09

DELIVERY

Whether its deliveries in Singapore or international shipments, we have a reliable in-house delivery team and we work with trusted logistics service/ express providers, who ensure our customers' deliveries are tracked & promptly delivered.

DECORATION SERVICES

PAD PRINTING

Pad printing is a printing process that can transfer a 2D image onto an object. It's a commonly used decoration technique as it can be printed on all kinds of shapes and textures.

SILKSCREEN

Screen printing gives high quality, long lasting results on flat surfaces. Inks are pressed through mesh stencils to produce clear, sharp images that are ideal for logos and text. Screen printing is ideal for large quantities.

DEBOSSING

It is a process whereby heat and pressure is being applied. This method can be used on real or artificial leather products.

HEAT TRANSFER

Heat transfer is carried out by creating a screen print image on paper and applying heat and glue to imprint the image onto the chosen article. This technique can be applied onto all kinds of woven and knitted products.

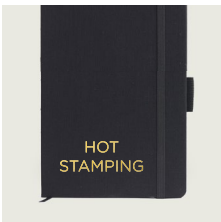

ROLLER PRINT

Roller print gives high quality, long lasting results on cylindrical surfaces. Inks are pressed through mesh stencils to produce clear, sharp images that are ideal for logos and text.

UV PRINTING

Flatbed Digital printing is the reproduction of digital images using inkjet printing. Flatbed digital printers use inks made of acrylic monomers that are then exposed to strong UV light to cure, or polymerize them. This process allows for printing on a wide variety of surfaces.

HOT STAMPING

Hotstamping is a dry printing method in which a heated die and foil are used to apply graphic on surface. It is a perfect way to create a superior impression.

EMBROIDERY

This traditional decorative technique is instantly recognized as a high quality feature that works really well for adding extra perceived value. Embroidery can be applied to both flat and irregular surfaces of all kinds of woven and knitted products.

DIE-CUT STICKER & DECAL

Carried out by first printing the image on sticker or decal. The printed article will then be die cut into desired shapes and sizes. Ideal for small quantities.

ENGRAVING

Engraving is the practice of incising a design on to a hard, usually flat surface. This method can be used on metal, glass and wood.
